

Issue

While selecting Indicators by “Framework”, the Framework panel does not show the scroll bars hence making it difficult to view the complete Framework. The problem occurs only when the Framework has elements which go beyond the visible portion of the pane.

Solution

Framework Scroll Bar Hotfix

A Hotfix has been created which can be installed on top of the existing installation of DevInfo 5.0 SP2.

Requirements for installing the Hotfix

- DevInfo 5.0 SP2 (5.0.2.9)
- This hotfix will not work for any other versions of DevInfo

Location

<http://www.devinfo.info/hotfix/001/publish.htm>

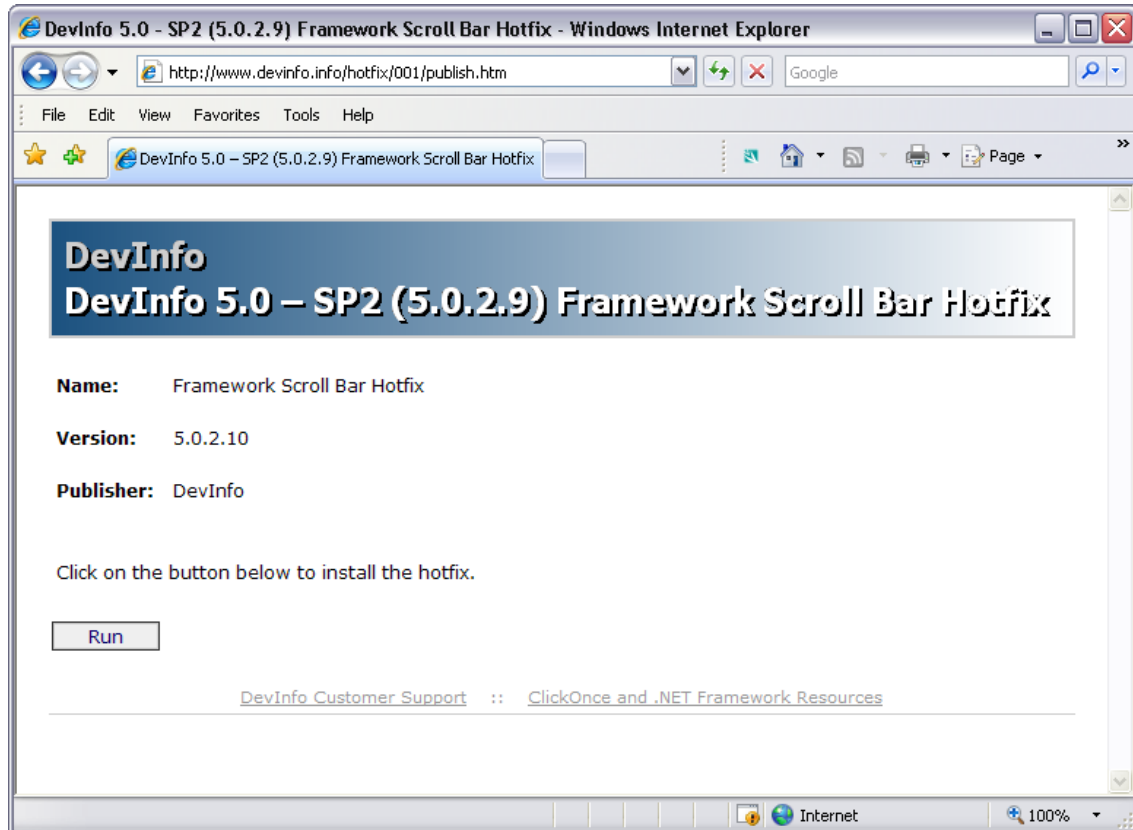

Figure1.1: DevInfo 5.0 – SP2 (5.02.9) Framework Scroll Bar Hotfix

Instructions

- Close DevInfo 5.0 SP2 if running
- Click on the Run button to install the hotfix.
