

2010 MDG Data Now Available Online *(August 2010)*

The United Nations Statistical Division (UNSD) has released the latest data on MDGs for all member states, available online at: <http://www.devinfo.info/mdginfo2010/>

The MDG Info 2010 database, launched as an adaptation of the DevInfo database system, contains the official UN statistics used in monitoring the world's progress towards the Millennium Development Goals. It contains over 225,000 data records for more than 150 indicators, spanning 320 different geographic regions and over 75 time periods. The database serves as an excellent resource for policy analysts, decision-makers, development partners and global citizens interested in charting past progress and planning future interventions.

To view a copy of the entire 2010 MDG Report, published by UNSD with the layout and design assistance of the DevInfo Support Group, please visit [http://www.un.org/millenniumgoals/pdf/MDG Report 2010 En r15 -low res 20100615 -.pdf](http://www.un.org/millenniumgoals/pdf/MDG_Report_2010_En_r15_low_res_20100615_-.pdf).

DevInfo is a powerful database system for monitoring human development endorsed by the United Nations Development Group (UNDG) to assist countries in monitoring achievement of the Millennium Development Goals (MDGs). To view an interactive e-learning presentation on how DevInfo is serving as the world's premier common database platform for tracking human development, please visit http://www.devinfo.org/E_Learning/DevInfo_6.0_Orientation_e-Learning_1.1/player.html.
